## Interior Design

Associate of Applied Science Degree  
Sioux City Campus

### Program Overview and Opportunities

Interior Design is an exciting and innovative profession for creative, imaginative, and motivated people. It is a growing field in which collaboration with architects, contractors and craftsmen takes place, ensuring that spaces meet regulatory requirements. Interior Designers plan layouts of buildings, design architectural detailing, create green spaces, and direct projects that are Americans with Disabilities (ADA) compliant. Additional activities include the coordination of colors and designs, materials, furnishings, lighting and accessories.

A multi-faceted profession, Interior Design is one in which creative and technical processes are applied with the purpose of achieving a planned and aesthetically-pleasing solution. Students take courses in space planning, residential architecture/construction, hand and computer-aided drafting, presentation methods, and design and color theory.

Graduates are prepared for diverse entry-level positions in architectural and engineering design firms, specialized design services including schools and hospitals, residential building construction companies, and facilities and events planning. Professional opportunities are plentiful in this expanding career. Average entry-level employment as an Interior Designer ranges between \$31,830 and \$57,230 annually. (Department of Labor Statistics and Iowa Workforce Information Network)

A two-year Associate of Applied Science Degree is available upon completion of the required coursework. A one-year diploma is also offered, along with various certificates. See an Interior Design advisor to design the program of study plan that's appropriate for you.

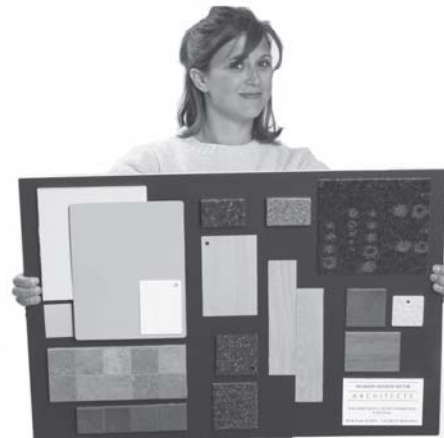

### Are You a Part-time Student?

All courses may be taken on a part-time basis. Some courses are offered online.

### Interior Design Curriculum

Course #	Title	Credits
<b>INT 300</b>	Textiles for Interior Design#	3
<b>ART 101</b>	Art Appreciation	3
<b>INT 145</b>	Visual Communications I#	3
<b>INT 122</b>	Design Theory#	3
<b>INT 112</b>	Architectural/Interior Design History#	3
<b>ART 132</b>	Color Theory	3
<b>INT 105</b>	Interior Design Fundamentals#	3
<b>INT 114</b>	Materials#	3
<b>INT 233</b>	Residential Architecture/Construction#	3
<b>MAT 775</b>	Applied Algebra/Geometry OR	3
<b>MAT 121</b>	College Algebra (4)	
<b>CAD 172</b>	Intro to CAD: AutoCAD	2
<b>SPC 122</b>	Interpersonal Communications	3
<b>INT 150</b>	Visual Communications II#	3
<b>INT 136</b>	Lighting#	3
<b>INT 160</b>	Studio I#	3
<b>PSY 102</b>	Human and Work Relations	3
<b>CSC 110</b>	Introduction to Computers	3
<b>BUS 102</b>	Introduction to Business OR	3
<b>BUS 130</b>	Intro to Entrepreneurship OR	
<b>MKT 110</b>	Principles of Marketing OR	
<b>MKT 140</b>	Principles of Selling OR	
<b>ACC 111</b>	Intro to Accounting	
<b>BUS 124</b>	Business Innovations	3
<b>BUS 934</b>	Capstone Experience	1
<b>BUS 930</b>	Career Readiness	1
<b>INT 340</b>	Compliance in Health, Safety & Welfare#	3
<b>INT 165</b>	Studio II 3-D#	3
<b>ADM 154</b>	Business Communications	3
<b>Program Total</b>		<b>67</b>

# Students must have earned a C (2.0) or better in courses as identified by # before graduation.

Sections of shading above indicate groups of courses that could be taken during the same semester if a full-time student is academically ready for all courses.

See course descriptions in the back of the catalog for more detailed information about course prerequisites and co-requisites.

Please see an advisor to ensure correct course sequence.

## Interior Design Certificates

### Lighting Design Certificate

This certificate is designed for the student whose intent is to pursue a career in lighting design for residential or commercial planning. Students will be introduced to techniques in hand drafting and interpreting blueprints, lighting design, and the technical aspects of lighting. These courses may be applied toward the diploma or associate degree program in Interior Design.

<b>INT 145</b>	Visual Communications I .....	3
<b>INT 136</b>	Lighting .....	3
	<b>Program Total .....</b>	<b>6</b>

### Facilities Design Certificate

This certificate is designed for the student who is interested in facilities planning for corporate, healthcare, or hospitality fields. Students will be presented with courses in hand and computer drafting, space planning and ergonomics, the design process and phases, and graphic standards. These courses may be applied toward the diploma or associate degree program in Interior Design.

<b>INT 145</b>	Visual Communications I .....	3
<b>INT 105</b>	Interior Design Fundamentals .....	3
<b>CAD 172</b>	Intro to CAD: AutoCAD .....	2
<b>INT 150</b>	Visual Communications II .....	3
	<b>Program Total .....</b>	<b>11</b>

### Residential Construction Certificate

This certificate is designed for the student who is considering a career in building/construction. Coursework will incorporate the history of architecture and interior design as well as the fundamental concepts of the built environment. The student will become familiar with the planning of a building and all of its integrated systems. These courses may be applied toward the diploma or associate degree program in Interior Design.

<b>INT 112</b>	Architectural/Interior Design History .....	3
<b>INT 233</b>	Residential Architecture/Construction .....	3
	<b>Program Total .....</b>	<b>6</b>

### Textile Design Certificate

This certificate is designed for the student who is planning a career relating to textiles. Coursework will include examining fibers, fabrics, textiles and the industry surrounding textiles. The psychology of color, color association and color harmony and the science of color will be explored. These courses may be applied toward the diploma or associate degree program in Interior Design.

<b>INT 300</b>	Textiles for Interior Design .....	3
<b>ART 132</b>	Color Theory .....	3
	<b>Program Total .....</b>	<b>6</b>

See course descriptions in the back of the catalog for more detailed information about course prerequisites and co-requisites.
